THE ATLANTA CONSTITUTION

BY W. A. HEMPHILL & CO. ATLANTA, GEORGIA, TUESDAY, AUGUST 30, 1870. VOLUME III--NUMBER 60

Evening Edition.

Atlanta, Georgia, August 30, 1870

Supreme Court Decisions.

The head notes of the Decisions of the Supreme Court, for the last term, are now ready, in pamphlet form, at this office. Price, one dollar.

Dr. J. J. C. Blackburn.

This familiar Georgian favored us with a call yesterday. He leaves Georgia to take charge of a Female College in Illinois, at a large salary. We wish the doctor great success in his new field.

Our New Bathing Institution.

We are glad to see that the bathing institution of Dr. Innes is meeting with success. As we have previously stated, we need such a thing as a permanency in Atlanta. The doctor has a host of certificates from leading men in Mobile, Ala.; Galveston, Texas, and other places, showing the merit of his vapor baths, and the remarkable cures he has effected. Our contemporary, the Mobile Register, has complimented him highly.

The Fence Question.

We give considerable of our space this afternoon to the speech of Mr. Smith, Senator from the 36th District, on the bill to change the fence laws of the State.

We have had it some time, but it has been crowded out. The importance of the subject, and the fullness with which Mr. Smith has treated it, warrant us in giving the space we do to the matter.

The subject was thoroughly discussed last year in the papers, and a broad diversity of opinion was developed. In populous counties, the policy is unquestionably to require parties to keep their stock up. In sparsely settled territory, it would be hard on the farmers.

At the North, all stock are required to be kept up, and the result is very manifestly to the advantage of every interest. More attention is paid to stock to their benefit, large amounts of money are saved in the disuse of unnecessary and expensive fencing, while the attention paid to beautifying places is much greater. One can ride through sections of country without seeing a gate.

The editor during his trip North visited the magnificent farm, near Boston, of Adams, the Express Company man. It contains several hundred acres, in the highest state of cultivation, and splendidly improved. It is said to be worth a half million of dollars. There is not a gate on it except to the stocks lot. He has seventy-five Jersey cows, worth five hundred dollars each. The lines of demarkation between the fields are tracked by the crops. A low fence, for ornament, is built along the road, but the absence of gates shows the needlessness of it.

The immense amount of money required to fence a farm, if spent in enriching the soil and buying labor-saving machines, would pay a far better interest to the farmer. Wherever a country is populous and developed, progress undeniably requires rigid fence and stock laws. But in thinly settled sections, with small settlements, and farmers of small means, it is not proper policy to take away the fine ranges of open pasturages from stock.

Let the proper medium be found.

The Fence Laws.

Speech of Hon. W. C. Smith, of the 36th district, on a motion to reconsider a bill to abolish the present fence laws, and prevent stock from running at large, in the Senate of Georgia, August 12, 1870:

Mr. President: I feel, Sir, that I would be recreant alike to myself and the interest I represent, were I not, after having voted for this measure with the stigma some members endeavored to attach to it, to give the reasons by which I was actuated. This bill has been styled as extraordinary one. This I concede to be true. It is an extraordinary one for good—not for evil, as some would have you believe. I assert that the operations of this bill, if passed, would more immediately affect the material interests, and that to a greater extent of a larger class of persons, than any bill that has been or will be presented to this Legislature. It is true that it meets with animated opposition; but I opine those who opposed it have been led to do so without once pausing to reflect upon its bearings, or figure out its many advantages. I propose this morning to present some figures that will doubtless surprise members, and the credence of which none can deny. I present facts without arguing the details that might be adduced therefrom.

The Hon. Senator from the 24th district, Mr. Hinton, stated on yesterday that the actual cost of fencing in Middle Georgia would pay for all the live stock, including horses, mules, cattle, hogs, etc., etc., within its limits. I stand in my place this morning, not only to reiterate and verify his statements, but to go still farther and assert that it will more than doubly pay for such stock. And still farther, that the actual worth of fencing in any average county of Middle Georgia will more than pay for all the live stock usually permitted to run at large in ten counties surrounding it. Have you thought of it? I ask this Senate to give the subject a little serious consideration. Take for example one lot of land; compute the cost of fencing it by the most economical method, into what I presume to be fields of average size.

Mr. Holcombe—May I interrupt you? What do you assume to be average size?

Mr. Smith—Twenty-five acres.

I believe it would average less, taking lots and everything into consideration, but will place it at that. Allow the fence to be only ten rails high, which is three rails less to the panel than the law requires, and you will find that it will require about 33,760 rails to fence it into twenty-five acre pieces, allowing the advantage of the cross fences. These I suppose to be worth $2 per hundred put up, which will be $6 74 cost to fence one lot of land as before stated. Let us take Coweta county as being an average county in Middle Georgia. By reference to the Comptroller-General's report, I find that there are 206,341 acres of improved land, or say 1,331 lots which, multiplied by 674, makes $894,094 worth of fencing in that county. What is the value of the live stock within its limits? I have not been able in the hasty preparation of these figures to ascertain definitely; but, taking table No. 11 of the Comptroller-General's report, we find the value of all other property, not enumerated, in which these are included, and will allow, for argument's sake, that live stock constitutes the full amount, which is only $374,475 less than half the above amount or cost of fencing. Meriwether, and many other counties, would make the relative proportion much greater. Here, then, I base my first proposition and dispose of the second by saying that not more than one-fifth of the value of this stock is now permitted to run at large. But this is not the real issue. We are not required to prove this much to establish the merits of the bill. Let us see if we can approximate a little nearer by another method. The issue is, is it cheaper to fence in your stock or your farms? Allowing your fence is completed at a cost as before stated, we will now compare the annual cost of necessary repairs with the expense of feeding your stock, provided, it were necessary to feed them. Ten per cent. is usually estimated as necessary to keep up these repairs. Here then you have in the county above alluded to, $89,409 expended annually in repairing fences. Now, I ask, what stock will be required to be fed more than at present that would require this sum? Really, but few cattle and hogs during the summer months allowing pasturage not obtainable. But would not even these, if it were necessary to keep them up in close pens, pay you back a large per centage for the extra feeding? Much more could be said to strengthen these views, but I must pass on to consider what I regard a still more important object to be attained by this bill—that is: To effect a more general distribution of lands than now exists, or ever can exist, under the present laws on this subject. This object is much to be desired. Every one knows that the great proportion of lands are owned by comparatively few people; and these land owners, instead of selling off, are continually adding to their already large farms—compelled to do so in order to get timber to keep up their fences. They cannot sell their cleared lands because the purchaser could not keep up his fence. They cannot sell off their wood lands, else their own fences will dilapidate. Hence, the land owners will become fewer and the number of the homeless increase. Pass this law, and what will be the result? The landless will buy up homesteads in quantities proportionate to their means, which they will improve and beautify, making glad the hearts of many who can now claim no foot of earth as their own. I know, and each of you know, many men who could and would sell off homesteads for a dozen such families, thereby benefitting all classes—the land owner in enabling him to dispose of his large and cumbrous possessions; the poor by enabling them to become "lords of the soil;" the whole State by the rapid increase of the taxable property. Again, much of the best land in small pieces on every farm is now lying idle because it is impracticable, and, in many instances, impossible, to fence it. These would all be brought into a state of cultivation. The fertility of all lands, unenclosed, would increase in a much faster ratio than now by the decaying of the rich and luxuriant vegetable undergrowth. Another consideration of no little importance consists in the fertilization of lands by the animal manures which would continually accumulate under this policy. Enclosures in which stock would be confined would receive daily additions to their fertility, very nearly if not quite equal in value to the cost of feeding. At present, this is, in the main, unappropriated, being generally distributed over the unimproved lands of the country.

And yet another consideration. Many of the luxuries of life—fruits and vegetables—would spring up spontaneously wherever the soil is best adapted to their growth, and invite the weary traveler to a luxurious repast without money and without price. Indeed, the land would blossom as the rose, and all the scenes of nature be enhanced in beauty and in grandeur.

One more idea in connection with the economy of this law. We now have completed, and in process of construction, about eighteen hundred miles of railroad in this State. It has been estimated that annually an average of ten thousand dollars are paid for stock killed to each one hundred miles of road—making an aggregate of one hundred and eighty thousand dollars paid by these companies; the whole of which would be obviated by this law, and the people benefitted by a corresponding reduction in the rates of freight and travel. A bill is already pending before this Senate to remove these liabilities, in which event the owners of stock would have no protection on the line of roads, except by the operation of the law.

Now, Mr. President, that Senators from the upper and mountainous portions of this State should oppose this bill, is nothing more than I expected, and I propose if it be reconsidered to offer an amendment to prevent its application to them. But that Senators from Middle Georgia, where its provisions promise such benefits, reasonable, calculating men, should oppose it, I must confess surprises me. Above all, why they should oppose it, when it is only proposed to go into effect after a majority of the legal voters of each county shall so determine, I am at a loss to conceive.

The measure under consideration will prove one of the most efficient aids in the promotion of the wealth of our great State. It is absolutely essential to the interests of a large portion of her citizens, and though of recent suggestion and novel to the majority of minds, will at no distant period evince by its grand effects the wisdom of its adoption. Let us not pass it by inconsiderately, but weigh its claims well, as we should every measure which may enhance the wealth and promote the general welfare of Georgia. A new era is upon us—an era in which new ideas are associated with the spirit of true progress, and he who regards with indifference and skepticism suggestions of policy, simply because of their novelty, may fail to keep pace with the march of improvement.

The bill was reconsidered and lies on the table for further action.

GEORGIA LEGISLATURE.

SENATE.

TUESDAY, August 30, 1870.

Senate called to order by President Conley.

Prayer by Wesley Prettyman.

Mr. Traywick moved to reconsider the action changing hours of meeting and adjournment.

Mr. Speer opposed reconsideration and moved to table the motion to reconsider.

Motion to table was lost.

Motion to reconsider prevailed, and hours of meeting put back to the old hours, ten o'clock A. M., and one o'clock P. M.

Mr. Burns moved to reconsider the action on the motion not to allow the introduction of new matter after Thursday unless by consent of a majority of the Senate.

Motion to reconsider lost.

Mr. Speer moved to suspend the rules in order to introduce a resolution that no new bill granting State aid to proposed railroads originating in the Senate shall be entertained after this day.

Motion to suspend the rules lost.

A message was received from Governor Bullock, suggesting that the General Assembly pass laws to secure the value of State bonds.

Mr. Speer again offered his resolution not to allow the introduction of bills granting State aid to railroads proposed in the Senate, after to-day.

On motion of Mr. Wellborn, the resolution was tabled.

The claim of certain physicians in Lee and other counties, for services rendered in small pox cases in the years 1862 and 1863, was taken up.

Mr. Nunnally moved to recommit to the Finance Committee.

Aaron Alpeora Bradley opposed the payment of the claims on the ground that they were unconstitutional.

Mr. Speer offered an amendment to include all such claims up to date.

Mr. Holcombe moved to postpone indefinitely.

Mr. Hinton opposed indefinite postponement in an able and logical effort.

The motion to indefinitely postpone was carried by yeas 24, nays 10.

Bills read third time:

House bill to authorize the municipal authorities of Marietta to levy a tax for the benefit of Marietta Female College. Finance Committee recommend its passage.

Bradley opposed the passage of the bill, because it levied a tax on a mixed people for the benefit of a particular class.

Messrs. Dunning, Speer and Campbell (15th amendment) favored the passage of the bill.

Bill read third time and passed.

To regulate the rate of interest in this State, fixing the rate at 7 per cent., unless a higher rate is agreed on in writing.

Finance Committee recommend its passage.

Mr. Wellborn opposed the bill, on the ground that it was wrong in morals and sound policy.

Mr. Speer called the previous question.

Messrs. Harris, Bradley, Hinton, Sherman, Holcombe, opposed call for previous question.

The vote stood 14 for and 14 against call for previous question.

The chair voted to sustain the call for the previous question.

Mr. Holcombe moved to lay the bill on the table.

Mr. Harris demanded the yeas and nays.

The vote stood 17 for and 17 against laying on the table.

The chair voted against laying on table.

The bill was then put on its passage with the following result: yeas 17; nays 18.

The bill was declared lost.

Mr. Fain gave notice that he would move to reconsider.

On motion of Mr. Wooten, the bill to amend the charter of the Ocmulgee and North Georgia Railroad was taken up.

Mr. Wooten moved to concur in the amendment made by the House.

The motion prevailed.

Mr. Holcombe moved to amend by striking out "Lawrenceville," and inserting "Gainesville."

The Chair ruled that the motion could not be entertained.

Bradley contended that the Senate could make a new bill if they deemed it proper, and cited the action of Congress on the Georgia bill as a precedent.

The Senate refused to discharge, the special order being the consideration of railroad bills.

The House bill to incorporate the Atlanta and Lookout Railroad. Tabled.

Mr. Speer gave notice that he was going to leave, and wished his name recorded as voting "yes" on all railroad bills.

Mr. McArthur gave notice that he was going to leave, and wished his name recorded as voting "no" on all railroad bills.

To amend charter of Charleston and Savannah Railroad Company. A Substitute was offered by the Committee on Internal Improvements. Substitute adopted.

To incorporate the Albany, Mobile and New Orleans Railroad.

Mr. Holcomb asked permission to record his vote "no" on all these railroad bills.

Mr. McArthur offered an amendment to strike out $10,000 State aid per mile and insert $28,000 per mile, but withdrew it as the committee had withdrawn their amendment reducing the amount of State aid per mile from $12,000 to $10,000.

Mr. Bruton offered an amendment limiting the capitol stock to $2,000,000, which was adopted.

The bill as amended was then passed by yeas 24, nays 4.

Mr. McArthur introduced a bill to legalize elections held in 1868, in the counties of Irwin and Telfair, which was read the first time.

Regular order resumed.

Bill to incorporate the North Georgia and North Carolina Railroad Company. Passed.

To authorize an increase of the capital stock of the Georgia Railroad to $5,000,000.

Mr. Candler offered an amendment "provided that said increase be paid in cash at par value," which amendment was adopted.

Mr. Bruton offered an amendment "provided said increased capital stock shall not be exempt from taxation as the other capital stock." Amendment lost.

The bill as amended passed.

Senate adjourned until 10 o'clock A. M., to-morrow.

HOUSE OF REPRESENTATIVES.

TUESDAY, August 30, 1870.

House met at the usual hour. Speaker McWhorter in the chair.

Prayer by Rev. Dr. Brantly.

Journal of yesterday's proceedings was read.

Mr. Turner gave notice that he would move for a reconsideration of the action of this House in giving fifteen thousand dollars per mile of guaranty to the Augusta and Hartwell Railroad, and to all other railroads to which the said amount was granted yesterday.

Mr. Sorrell gave notice that he would move for a reconsideration of the action of this House in incorporating the Ocmulgee River Railroad.

Mr. Scott gave notice that he would move for a reconsideration of the action of the House in giving $8,000 per mile additional guarantee to the Albany and Brunswick Railroad.

Mr. Darnell made the point of order that those bills having been ordered transmitted to the Senate by a two-thirds vote that it is out of the power of the House to reconsider. Which point the Speaker ruled was well taken.

Mr. Scott made the point of order that the Senate was not in session yesterday afternoon, and that these bills have not yet passed from the custody of the House.

The Speaker ruled that the point was not well taken.

From which ruling Mr. Scott appealed.

The appeal was put before the House, and the Speaker's ruling was sustained.

Mr. Scott gave notice that he would move for a reconsideration of the action of this House in passing a resolution instructing the President of the Senate and the Speaker of the House to keep back all railroad bills until all bills of a like nature had been acted on by this House.

All these motions to reconsider were nullified by the Speaker's ruling on Mr. Scott's appeal.

The bill to incorporate the Lookout Mountain railroad, was read the third time.

Mr. Scott opposed the bill, and said that it has not been often during this session, or this Legislature, that he has opposed railroad measures, but that this is one of those cases in which there is clearly no need of granting the privileges asked for. This road starts from Kingston and runs via Dirt Town to Lookout Mountain, and that he believes the whole affair is gotten up for speculation in State bonds, for there is not the slightest necessity for granting aid; for there is not a farm through which this road passes more than eight miles from the Rome and Kingston railroad, which latter road has a provision in its charter prohibiting the building of any road within twenty miles of its line. Will this House stultify itself by incorporating and granting State aid to several other roads, and then charter and aid a road which proposes to run through the same territory. Mr. Scott eloquently advocated his proposition, and appealed to the House to refuse the privileges asked.

The proposed road would run within eight miles of the road from Rome to Kingston, and would pass over the same territory as other roads already built or incorporated.

Mr. Hall, of Glynn, advocated the bill, and said that it did not behoove the gentleman from Floyd to oppose these measures, when his own city had received so many privileges from this Legislature.

Mr. O'Neal, of Lowndes, said that he had set out some time ago to fight State aid, but that he had been forced to fall back from his position. Now he wanted all these bills to go to the Governor and wanted this one to stand a chance with the others; perhaps his Excellency might prefer it to some of the others in the same section. Mr. O'Neal called the previous question, which was sustained, and the bill was passed and ordered to be transmitted to the Senate.

A bill to open and construct a railroad from Athens to Clayton, Georgia, was read the third time and passed.

The bill to incorporate the Chattahoochee Air Line Railroad, was read a third time and passed.

The report of the committee on the bill to incorporate and grant State aid to the Griffin, Monticello and Madison Railroad Company was, on motion of Williams, of Morgan, laid on the table; and the Senate bill on the same subject, on its third reading, was taken up.

Mr. Tumlin said that, as the Georgia Road had agreed to back the enterprise, there could be no use in granting State aid; that the State has endorsed railroads to the amount of about forty millions, and he feared her credit would be impaired at home and abroad.

Mr. Rice moved to reduce the amount of State aid.

Mr. Williams called the previous question on the adoption of the original bill, which call was sustained and the bill passed.

Mr. Fitzpatrick gave notice that he would move to-morrow for a reconsideration of the action on this bill.

The Speaker announced that the appointed hour had arrived for taking up the charges of bribery against Messrs. Atkins and Stone.

Mr. Darnell moved to postpone the consideration of the question until after the conclusion of the action on railroad bills, which motion prevailed.

A message from the Senate was received saying that the House resolution authorizing and requiring the Treasurer to pay to each member of the General Assembly one hundred dollars had been concurred in.

The bill to incorporate the Great Southern Railroad Company, and to grant State aid to the same, was read a third time and passed, and on motion of Mr. Tweedy was ordered to be transmitted to the Senate.

On motion of Mr. Scott the rules were suspended and the following bill was read the second time:

A bill to fix the salaries of Judges of the Supreme Court.

A bill to legalize the processes of Clerks of the Superior Courts of the Atlanta Circuit was read a third time and passed.

A bill to change the time of holding the Superior Courts of the Atlanta Circuit was read a second time.

The bill to incorporate the Gainsville and Ellijay Railroad, and to grant State aid to the amount of $15,000 per mile to the same, was read the third time, passed, and ordered to be transmitted to the Senate.

The bill to loan the credit of the State to the Americus and Florence Railroad Company was read a third time, passed, and ordered to be transmitted to the Senate.

On motion of Mr. Williams, of Morgan, the use of the hall was tendered to Hon. Amos T. Akerman, on Thursday night, for the purpose of delivering an address.

A message from the Senate was received saying that the House bill to enable the Mayor and Council of Marietta to levy a tax within the city limits, for the Marietta Female College, had been concurred in.

The bill to loan the credit of the State to the Polk Slate Quarry Railroad Company, was read a third time and passed.

On motion of Mr. Tweedy, Hon. D. Irwin was invited to a seat on the floor.

On motion of Mr. Armstrong, the same courtesy was extended to Colonel John B. Weems.

Also, on motion of Mr. Franks, to A. Schmidt, Superintendent of the Macon and Brunswick Railroad.

The bill to extend the aid of this State to the completion of the Savannah, Griffin and North Alabama Railroad Company was read a third time and passed.

The bill to incorporate the Americus and Isabella Railroad Company was passed and ordered transmitted to the Senate.

The bill to incorporate the Atlanta and Blue Ridge Railroad Company was amended, passed and ordered transmitted to the Senate.

Leave of absence was granted to Mr. Hillyer.

On motion the House adjourned until 9 A. M. to-morrow.

[NOTE BY REPORTER.—Wherever, in our report of Monday's proceedings of the House, the name of "Mr. Newton" occurred, the name of Mr. Lee, of Newton, should have appeared.]

ASSOCIATED PRESS DISPATCHES.

NEW YORK.

NEW YORK, August 30—The D'Etats Unis special from Paris says:

The Ministry are on the eve of departing for Tours.

The Emperor was invited to accompany them. He responded that his place was with the army, now in the neighborhood of Verdun, where a great battle is imminent.

A series of bloody engagements have taken place in the wooded regions between Varennes and Stenay, but nothing definite is yet known.

The workshops in Paris were closed yesterday.

ROCHESTER, August 30.—The Exchange Bank fell, burying a number of workmen, killing three and wounding many others.

PENNSYLVANIA.

POTTSVILLE, August 30.—Six persons were killed by the derangement of a hoisting apparatus at Preston Slope.

FRANCE.

PARIS, August 30.—Official advices state that the Prussians continue their movement on Rethel and Vouziers.

Twenty thousand cavalry passed Chalons going towards Epernay.

Strasbourg and Pfalsburg still hold out.

CARLSRUHE, August 30.—The Bishop of this city, on the plea that the bombardment of Strasbourg was contrary to the laws of humanity and modern warfare, obtained twenty-fours cessation; meantime non-combatants will leave the city. Returning the Bishop's flag was riddled with balls.

Bombardment resumed; surrender mere question of time.

ENGLAND.

LONDON, August 30.—The Times says five German detachments routed six French detachments of cavalry near Bougany, Germany. They belonged to the 4th Army, which is now scouting in the eastern departments to prevent communication between McMahon and Bazaine.

The Prussians say the dispatches purporting to come from Bazaine were fraudulent, as Bazaine is entirely isolated.

The following from the French War Office is just received:

Nearly 900,000 men are now in a triangle formed by Rheims, Rethel and Vouziers.

Bazaine is not shut up. He has 120,000 men.

McMahon has 180,000 men marching on Prince Royal, who is two days ahead of Frederick Charles. It is hoped that the latter cannot come up in time. Fifty thousand troops left Paris for Rethel on Monday.

It is stated that the Prussian force is 500,000.

BELGIUM.

BRUSSELS, August 30.—The Belgians are hastening to the frontier from all quarters. The heat of the battle is apparently imminent. The presence of the Belgians will be necessary to protect neutrality.

Lights are placed over the wreck of the Golden Fleece, in the Bristol channel, but much care is necessary in approaching the city.

McMahon's headquarters are at Sedan.

"BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being, around which revolves all that makes existence happy. When this source is corrupted the painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barrenness, Disorders of the Womb, Dropsy, Syphilitic Affections, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though sometimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

DR. TUTT'S
COMPOUND EXTRACT OF
SARSAPARILLA AND QUEEN'S DELIGHT

Is the acknowledged antidote to all Blood Diseases. By its use the afflictions above enumerated can be permanently banished, and the Source—the Centre of Life—the Blood, be maintained in all its purity and vigor.

For Diseases produced by the use of Mercury, and for Syphilis, with its train of evils, this compound is the only sure antidote.

THE WORLD'S WONDER.
DR. ABBETT'S ANTI-DYSPEPTIC
—OR—
LIVER MEDICINE
A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as
Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Bilious Fever, Dropsy and Jaundice.
These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.
Respectfully,

LAGRANGE, GA., DEC. 3, 1868.
MESSRS. CRAWFORD & WALKER, West Point, Ga.
Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.
I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.
MESSRS. CRAWFORD & WALKER: Gentlemen—I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain, Yours, truly, A. K. KENDRICK.

UNIVERSAL LIFE INS. CO.
—NEW YORK—
The Original Joint-Stock Life Ins. Co. of the United States.
The business of this Company is EXCLUSIVELY confined to the insurance of first class healthy lives.
THE DISTINCTIVE FEATURE
of the *Stock* system of Life Insurance, as opposed to the *Mutual*, is a low rate of premium for a stated sum insured, which is IMMEDIATE, SECURED and CERTAIN; in lieu of a high rate of premium with a promised dividend, which is DISTANT, CONTINGENT and UNCERTAIN; this so-called dividend being merely a return of a *portion* of the excessive and unnecessary premium charged in the first instance.
ILLUSTRATION.
Suppose that an individual aged thirty desires to devote $[illegible] a year for life for the purpose of effecting an insurance on his life; this amount will immediately secure him in the UNIVERSAL the sum of $11,751, payable on his decease. This sum, paid to a company charging the ordinary mutual rates, would secure him the sum of $8,474—difference, *immediately secured*, in favor of the UNIVERSAL, $3,277.
To illustrate the importance to the policy-holder of low premiums in more general terms, it may be stated that by a reduction of *twenty-five per cent.* in the rate of premium, the same amount of money will secure a policy *thirty-three and one third per cent.* greater, and likewise that a reduction of twenty-five per cent in the rate of premium is precisely equivalent to an *annual cash dividend of thirty-three and one-third per cent. payable in advance*, or to a dividend of *forty-five per cent.* payable at the end of five years.
By the *Stock* plan the *full cash effect* of the premium is immediately secured to the insured, the Company taking all the risk. By the Mutual plan the full value in insurance of the premium paid, is not secured to the policy-holder, who takes a portion of the risk himself.
THE PREMIUMS
charged by the Universal are as low as the actual experience of insured life in this country will justify, and on the ordinary Life and Ten-Year Non-forfeiture policies are nearly one-third lower than those charged by the majority of Mutual Companies.
Special attention is asked to our "*Return Premium Plan*," by which the amount of the policy is secured simply by the temporary deposit of the annual premiums, which are *returned* in full, together with the amount assured, to the holder of the policy when it shall become a claim upon the Company. Also to the
"REDUCTION OF PREMIUM PLAN,"
by which a reduction of *one-third* is made in the premium after the first annual payment, being, in fact, equivalent to a *dividend* of 33⅓ per cent. A clause is inserted in the policies issued by the "Universal," in which these results are *distinctly specified and guaranteed*.

OFFICIAL JOURNAL OF THE CITY.

THE LARGEST CITY, COUNTY AND STATE CIRCULATION.
DEFIES REFUTATION.

BY W. A. HEMPHILL & CO.

I. W. AVERY, Editor.

Morning Edition.

Atlanta, Georgia, August 30, 1870.

Democratic Executive Committee.

The members of the committee are requested to meet in Atlanta on Thursday, September 1, for the election of their chairman.

A. H. COLQUITT, President.

The Education Bill.

In another column will be found a communication from Mr. Martin V. Calvin, of Augusta, Ga., one of the best and ablest teachers in the State, about the education bill just passed the House. He makes some sensible suggestions. He knows the whole subject thoroughly.

The Negro Insurrection.

The Macon Telegraph has a letter from Jefferson county, stating that about thirty of the riotous negroes have been arrested. Eleven cases were disposed of on the 25th, three discharged, and eight, including Cudgo and his man Brewer, committed for trial and sent to the Macon jail.

Evidence shows the most extensive insurrectionary plots to have been formed. The affair is probably over, and the punishment begins.

☞ Did the Trustees of Oglethorpe College meet to arrange the Faculty in Atlanta or in Macon? We see that THE CONSTITUTION says they met there, using the same language to announce the fact that we did that they met here. If we are mistaken about the matter, really we would like to be right.—*Macon Telegraph and Messenger.*

The paragraphs above alluded to were taken by this paper from the Macon Telegraph and Messenger, and by inadvertence of the printer went in without credit. We frankly apologize to our sensitive cotemporary for the unintentional omission, and the failure, through forgetfulness, to correct it.

To the Public.

By communication from the Hon. John W. O'Neal, of the House of Representatives of Georgia, I am informed that he, Mr. O'Neal, has never introduced any local bill in reference to Liberty county.

I therefore take pleasure in communicating the same to the public. The citizens of Liberty county, from published proceedings of the Georgia Legislature, believed that it was Mr. O'Neal who introduced the bill to authorize the Ordinary of Liberty county to keep his office at his house, and attributed the same to him in the proceedings of a public meeting held in Hinesville on the 16th instant.

J. A. GIRARDEAU,
Secretary late Citizens' Meeting.

Hinesville, Ga., August 24, 1870.

Sixth District Democratic Congressional Convention.

LAWRENCEVILLE, GA., August 22, 1870.

A convention of the Democratic party of the Sixth Congressional District is hereby called, to assemble at Gainesville, Hall county, on Wednesday, September 21st, to nominate a candidate for the unexpired term of the 41st, and for the 42d Congress.

The people of the different counties of the District are requested to hold primary meetings on the first Tuesday in next month, and appoint delegates to said convention. It is earnestly hoped that every county will be fully represented, that there may be a fair and satisfactory expression of the popular choice.

WM. E. SIMMONS, Chairman,
Democratic Executive Committee, Sixth District.

The District papers will please copy. tf

Trouble at Stilesboro.

The contractors of the Van Wert and Cartersville Railroad (Laman & Co.) it seems have been in arrears to their hands for a few weeks. On last Friday, we are informed, the hands, black and white, led on by one Welch, an ex-Union soldier, made a peremptory demand for payment. Mr. Laman asked them to wait until the pay-rolls were made out. They refused to wait and seized his commissary stores by force, and have held them until yesterday, when it was understood that they had applied to the courts to enforce their labor lien on the same.

No resistance was made to their overwhelming force by the contractors. There was a good deal of excitement among the people. The only attempt at disorder was made by the hands. There was no politics in it. Two-thirds of the one hundred and fifty engaged in the matter were negroes.

It seems that the contractors had suspended this squad from work, and claim that the delay in payment was simply to get up their pay rolls. The men, fearing some trick in the matter, and many of them being far from home without money, as they allege, resorted to violence to secure their rights. The contractors say that they shall be paid immediately. There are no fears of any further disturbance.

The Female College Project.

Our citizens are in dead earnest in the matter of establishing a Female College in Atlanta. The high character, the liberal spirit and ample means of the gentlemen at the head of the movement are a guarantee of the energy and tact that will be used in carrying it through.

The advantage of such an institution cannot be over estimated. We have plenty of growing young girls to keep up this college. The pecuniary benefit of colleges to a city has been amply shown in the discussion about Oglethorpe. But the great crowning beauty of such an institution in our midst, is that it enables our citizens to give their daughters the finest educational opportunities, and yet surround them with the wholesome restraints and tender associations of home. This cannot be over estimated.

We have a wealthy, growing city, and this college is a great necessity. It will, too, become an instrument of greater growth. People will move here to educate their daughters.

A grand convention is to be held at DeGive's Opera House on Friday night next, at 8 o'clock, when our first men are to speak on the subject. We hope to see our ladies out in force. They must take an interest in the splendid enterprise, and help it on with their enthusiastic co-operation. We trust to see a large audience assembled.

On with the college.

☞ A World correspondent writes from Strasbourg: "Stephens, the celebrated Fenian, is here, and was for some time oscillating between Chalons and Metz, but is now in this city. He is a vehement champion of France in the present war, and only does not enter the lists practically because he holds his life to be the property of Ireland."

M. Adolphe Thiers.

This Frenchman has been prominently brought before the world often recently in connection with the war. He opposed the war, sturdily claiming that France was not ready. Monsieur Paradol, the late French Minister, is said to have committed suicide because he had indiscreetly praised Thiers, and thus offended Napoleon whose policy Thiers opposed. The telegraph brings us the news that he has been added to the French Committee of Defense in response to the clamors of the people.

This remarkable man who has played no inconsiderable part in French history, and who seems destined to further celebrity, deserves a few words of biographical notice.

He was born at Marseilles, noted for producing geniuses, on the 16th of April, 1797, and is 73 years old. His origin was humble. He received a charity education. He became a Parisian lawyer at 23 years of age. He was a general and close student. He made his mark immediately. He became lawyer, politician, literateur and editor, and sprung into brilliant celebrity for boldness, ability, and eloquence. With remarkable audacity he possessed much good sense.

He founded in 1830 the celebrated newspaper, the Nationale. In the revolution that sent Charles the Tenth from his throne, it was Thiers who proposed Louis Phillippe as King. Under his administration Thiers became successively Minister of Finance, Minister of the Interior, Minister of Commerce and Public Works, Secretary of State for Foreign Affairs, and President of the Council of State. In all he exhibited his usual genius. His acts during this period were many and notable. He got Isabella II. on the Spanish throne; had Egypt made independent of the Sublime Porte, and procured the remains of Napoleon I. to be brought to France. He also captured the Duchess de Berri, whose son was the Bourbon heir to the throne. During this period he wrote his famous "History of the French Revolution." His "History of the Consulate and Europe" is another great work subsequently written.

In 1848 he attempted to save the monarchy, but failed, and became a leading conservative delegate in the convention of the Republic. In the same body Louis Napoleon, now Emperor, was a radical Democrat. He sustained Napoleon for President against Cavaugnac, and fought a duel with a brother delegate for hinting that Thiers had once thought the election of a Bonaparte would be a disgrace to France.

Thiers bitterly opposed the empire, and was exiled in 1851, when Napoleon was elected Emperor. He returned and took the oath of allegiance to the empire, and has been elected legislator nearly constantly, but has mostly been in opposition to the government, though sustaining some of Napoleon's measures. He opposed the Crimean and Italian wars, and the Mexican movement. He has been a thorough protectionist. He made a powerful speech against the present war, declaring that Prussia had given no cause for hostilities.

When he was but thirty-six he became a member of the French academy.

Though so old he yet seems as vigorous in health and brain as ever. He is the leader of the French Legislative Corps. His powers are undimmed. He has seen and taken prominent part in all of the curious and astounding vicissitudes of the French nation for the last fifty years.

It may yet be his fate to help conduct his volatile people through another throe of national change.

PUBLIC INSTRUCTION.

Review of the House Bill—How its Defects may be Remedied—The Importance of the Office of County Commissioner Carefully Shown—Senators have a Work to do.

Editors Constitution: In addressing this communication to the members of the General Assembly through the medium of THE CONSTITUTION, I presume, Messrs. Editors, upon the deep interest you have all the while manifested in the important subject of popular education.

I noted, with no small degree of interest, the progress made by the House in disposing of the bill providing for a system of public instruction in our State.

It strikes me that the bill adopted is, in the main, very good. It has its defects, of course. Many of which do not now appear as clearly as others. Those that are patent as the bill goes from the House to the Senate ought to be remedied by the latter body; the future will develop the others gradually, and at the same time suggest the remedy.

It is almost unanimously acknowledged all over Georgia that an enlightened public school system is an absolute necessity. The people demand its immediate inauguration. No one expects a perfect school law. Every person who feels any interest in the welfare of the State, admits and urges the importance of a liberal provision for the education of the youth of the State. And it is beyond peradventure the public will that schools for the races shall be provided separately, to the end that the interests of all, and the well-being of all may be preserved.

I am pleased that the local element is made to predominate to so large an extent in the bill just passed. More conspicuous local features might safely have been, and may yet be, incorporated in it. Legislators should not lose sight of the fact that in *localizing* they *vitalize* the school law.

The County Board of Education should be permitted to levy such per centage on the State tax as will raise funds sufficient each and every year to conduct the schools under their care, in a live and progressive manner, paying their teachers and commissioner a fixed salary, monthly. Economy, which consists in the vigorous use of money, demands this. If good, competent teachers are desired—men and women who are fitted, and will seek daily to make themselves better fitted for their high office—suitable inducements must be offered, else they cannot be secured.

It is a false notion that a certain per diem serves to make the teacher more faithful. In too many instances, it cripples his instructive and disciplinary powers. Give the teachers fixed salaries according to ability and grade of school; and naught but good will come to the school, under the eye of a wide-awake superintendent or commissioner, backed by a public-spirited board of education.

"If any one fact has been more perfectly developed by the workings of school systems in sister States—South, East and West—than the indispensability of an active, argus-eyed supervision of schools on the part of a county commissioner, I have not been able to detect it. The directorship is the very life of the Prussian system. Whether known in this country as the county superintendency or commissionership, the office is justly esteemed as the 'right arm of a school system; its strongest living element of power; the most closely identified with its future progress and development.' It is no less important than the State school commissionership. The county boards will be composed of merchants, mechanics and farmers, who will have precious little time and less inclination (except as they become enthused by the active spirit of a whole-souled, working county commissioner) to study school management. They receive no compensation and are expected simply to attend the regular meetings of the board, visit the schools when convenient, and act for the interest of the same when subject matter for action is presented by some person, who is more thoroughly identified and acquainted with the condition and progress of the schools. Supervision is not only equal to good teaching, but tends to secure it. To be of any value, it must not consist in a 'drowsy, indifferent, listless, looking on, that sees only a few prescribed acts to be done; not the farcical oversight that occasionally glances from absorbing private occupations to neglected fields of official duty; not a trafficking, jobbing, speculating circumspection, but an active, intelligent, thorough, vigilant, consistent[?]ous supervision that makes its existence favorably felt in the schoolroom and in the community, and that manifests an earnestness and solicitude becoming the management of one of the most precious interests of society."

Millions may be spent in support of a system of public schools, but with what purpose and with what results depends almost wholly upon supervision.

The County Commissioner, then should devote himself exclusively to the duties of his office. He must be all the time employed in visiting and examining the schools and noting the workings of the system. He must know even the idiosyncracies of every teacher and the standing of almost every pupil. He must be able to give advice in season to the teachers. He must be a man whose coming will gladden the pupils and delight the teacher. He must keep the board fully and accurately advised as to every *minutea* touching the schools in the county. He it is who will do more than any other man to rally the people to the support of the system, by clearly exhibiting and demonstrating its beauties to them. He is to be the genius of the schools. Not a man of glittering generalities but solid—life-inspiring. His face always ablaze with professional enthusiasm, and his heart always bounding for the promotion of the interests in his hands. To be thus, he must be free, as far as possible, from outside anxiety. He must be so compensated as to be able to make the commissionership the business of life.

Put him on the miserable *per diem* proposed, and he must necessarily engage in other pursuits. Whenever private and public interest come in contact, the latter invariably suffers. Let the Senate strike out the $3 *per diem* clause, and allow the County Board to employ a suitable person as County Commissioner, at a salary of not less than $1,000 per annum, to be paid out of the county fund.

Respectfully,
MARTIN V. CALVIN.

GEORGIA LEGISLATURE.

HOUSE.

MONDAY, August 29, 1870.

Mr. O'Neal, of Lowndes, offered a resolution that the General Assembly go into bankruptcy.

The following bills were read the third time:

A bill incorporating the Americus and Florence Railroad Company.

Mr. Hall, of Glynn, made the point of order that the bills asking for State aid were not the order of the day. Over-ruled. The bill passed.

A bill extending State aid to the Marietta, Canton and Ellijay Railroad.

Mr. Darnell offered an amendment changing the name to the Marietta and North Georgia Railroad. The amendment was adopted.

Mr. Williams, of Morgan, offered an amendment, changing $12,000 to $15,000. Adopted.

The bill passed as amended, and transmitted to the Senate.

A bill amending an act extending State aid to the Brunswick and Albany Railroad Company.

Mr. Tumlin called the previous question. Sustained. The bill passed.

Mr. Williams, of Morgan, gave notice of a motion to reconsider. Transmitted to the Senate.

A bill incorporating St. Mary's and Western Railroad Company. Passed, and transmitted to the Senate.

A resolution giving a seat on the floor to Rev. J. H. Stockton, of Columbia. Adopted.

A bill amending a bill incorporating the Augusta and Hartwell Railroad Company. Bill passed with amendments. Transmitted to the Senate.

A bill extending State aid to the Fort Valley and Hawkinsville Railroad Company. Passed. Transmitted to the Senate.

A bill incorporating the Chattahoochee Railroad Company. Passed with amendment. Transmitted to the Senate.

A bill incorporating Barnesville, Millen and Albany Railroad Company, and extending State aid to the same. Passed. Transmitted to the Senate.

Mr. Fitzpatrick gave notice of a motion to reconsider.

A bill extending State aid to the Dalton and Albany Railroad. Passed. Transmitted to the Senate.

Mr. O'Neal, of Lowndes, offered a resolution that every railroad bill be transmitted to the Governor at once. Adopted.

The following message was received and referred to the Finance Committee:

EXECUTIVE DEPARTMENT,
ATLANTA, GA., August 29, 1870.

To the General Assembly:

An act to authorize the Governor to borrow money, adopted in the House on the 22d instant, has been approved.

By this act, the Governor is authorized and requested to effect a loan to the State, by *bond* or otherwise, etc., a sufficient amount to pay the members and other officers of this General Assembly, and immediate steps will be taken to carry out the wishes of the General Assembly in this regard, but I embrace this opportunity to invite the attention of your honorable body to the important fact that bonds of the State which were issued before the war bearing six per cent. interest, have fallen due, and no provision has as yet been made for payment. Bonds issued and disposed of in England before the war, known as "sterling bonds," fell due in 1868, and are as yet unprovided for. There is in addition to this some two hundred and twenty-five thousand dollars due the Fourth National Bank in New York, for amounts advanced by them to meet the interest on the State's bonded debt in January and July of this year.

This amount has not as yet been provided for. I would, therefore, earnestly commend to your early attention the necessity which exists for some provision being made, whereby a uniform series and character of bonds shall be authorized for the purpose of providing for the bonds which are past due, and for the settlement of this character of indebtedness. It would be unwise to attempt to issue or dispose of temporary bonds for the purposes named in the act referred to, while this large matured indebtedness exists without any provision being made to protect the credit of the State, and I, therefore, indulge the hope that the wisdom of your honorable body will suggest and enact such a law as will best protect our credit, by liquidating our indebtedness, through the use of a uniform series of bonds that will secure a full price in the market. To offer a temporary bond now, in our present condition, would not bring, in the market, over 80 or 85 cents on the dollar, and the State's indorsement, which has been given to aid railroad enterprises would be wholly unavailable to them.

The importance of this subject demands your early attention, and to it that attention is respectfully invited.

RUFUS B. BULLOCK.

House adjourned until 9 o'clock to-morrow morning.

The Western and Atlantic Railroad.

PRESIDENT'S OFFICE
NASHVILLE AND CHATTANOOGA AND
NASHVILLE AND NORTHWESTERN RAILWAY.
NASHVILLE, TENN., August 25, 1870.

Hon. Foster Blodgett, Superintendent, etc., Western and Atlantic Railroad, Atlanta, Georgia:

MY DEAR SIR: I have just returned from Georgia, and having passed over the Western and Atlantic Railroad, both in going and returning, I request to say, and trust you will not take offense at my saying that you have a vast amount of work to do on your road bed, bridges, etc., in order to insure *safety* and *convenience* in the transportation of the *heavy business* we anticipate the coming season.

Last season's *blockade of freight* at Chattanooga will readily remind you of the want of additional engines and cars on your road, and we expect to not only maintain, but greatly *increase* the freights the coming season.

You will not feel surprised at my anxiety for the good condition and full equipment of your road, when you recollect the fact that I am *officially* connected with three hundred and thirty miles of railway north of your road, and with about two hundred and thirty miles south of your line, and connecting directly at each end of the Western and Atlantic Railroad, and our success in a great degree depending upon the promptness with which the freights may be *dispatched* over your road.

This is not a question that interests alone your road and ours, but one which effects directly or indirectly every citizen of Georgia, and those in the West trading with your section.

Trusting that these considerations may stimulate you to put forth your *usual zeal* to meet the crisis now upon you,

I am, very respectfully,
Your obedient servant,
E. W. COLE,
President, etc.

WESTERN AND ATLANTIC RAILROAD,
OFFICE SUPERINTENDENT,
ATLANTA, GA., August 29, 1870.

Colonel E. W. Cole, President Nashville and Chattanooga and Northwestern Railroad, and General Superintendent Georgia Railroad and Banking Company, Nashville, Tenn.:

My Dear Sir: In response to your esteemed favor of the 25th instant, I would say that I fully appreciate the force of the suggestion you are pleased to make in reference to the condition of this road, and that I am still doing everything in my power to put the road in first-class condition.

To this end almost the entire net earnings of the road have been expended in payment of contracts for material and stock made by my predecessor, and in the purchase of new iron, rolling stock, motive power and equipment for the road ordered by myself. But for these necessary expenditures, I would have been able to make larger payments into the State Treasury than, perhaps, have been made for years past, as the business of the road has been larger than heretofore.

These expenditures have enabled me to put the road in better condition than it was last year; but there is, as you suggest, much yet to be done in order to meet the demands of the trade.

There is some forty odd miles of the road that require new iron; the safety of the road demands this, and I hope to be able to supply it soon. We also need 250 additional freight cars, and at least five more first-class engines. These, in addition to the repairs of bridges and road bed, which you suggest will require additional heavy outlays of money; and in view of the heavy payments made and to be made for repairs and stock contracted for by my predecessor, and those I have thought necessary to make, it will be impossible to put the road in first-class condition and supply it with sufficient rolling stock and motive power to do the heavy business anticipated by you this fall, without an appropriation by the State for that purpose.

The Joint Committee of our Legislature appointed to investigate the affairs of the road, recommends in their report to the Legislature, an appropriation *at once*, for putting the road in first-class condition; and a bill, as I learn, has been introduced for that purpose. Should the recommendation of the Committee be promptly acted upon, I hope to be able to place the road in a condition second to that of no railway in the United States, and consequently, in a condition to keep clear of all "freight blockades" during the ensuing season.

Thanking you for your timely suggestions, and with sentiments of great esteem, I remain yours very respectfully,

FOSTER BLODGETT,
Superintendent.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON.

WASHINGTON, August 29.—Revenue to-day over a million.

The Revenue Department refuses to suspend the collection of the special tax on pork packers.

The tax from fruit distillation this year doubles that of last.

The decrease of the national debt this month five millions less than last.

NEW JERSEY.

TRENTON, August 29.—The Washington express train ran off the track; a brakesman and German were killed; several passengers were slightly hurt.

NEW YORK.

The Telegram's special London dispatch from Montmedy reports that a great and bloody battle commenced on Sunday evening. The battle is undecided.

Sixty thousand troops in excellent order and fine spirits passed Saissons to reinforce McMahon.

FROM THE SEAT OF WAR.

FRANCE.

PARIS, August 29.—The Bourse de Boulogne is filled with cattle.

The Moniteur says: "Six days will be needed for the Prussians to reach Paris. Perhaps their scouts will arrive sooner, but we shall be ready."

The Opinion Nationale says Balikao must have entire authority during the crisis, and again demands the expulsion of all Germans from Paris.

The Minister of War announces that with the reserve weapons he can arm an immense National Guard, in addition to those already under arms.

The Minister of Commerce and Agriculture is wonderfully active. He has collected a quarter million of quentals of flour, rice, and fresh vegetables in proportion. Forage is abundant. Munitions of war plentiful.

The preparations of defense continue.

All the French palaces are appropriated for hospitals.

Russia and England strongly oppose French dismemberment.

Americans are rapidly leaving Paris.

The hotels are empty.

A Republican conspiracy has covered South Germany.

Official news says the Prince Royal's army is going towards Suippes.

The Germans spread throughout Aute have abandoned their camps and are moving towards Sommepy. Twenty-five thousand recently passed Joinville going towards Wassy and Mautierender.

The enemy is advancing toward Rethel from the direction of Manthars Grand Pre and Colp au Bois.

Twenty thousand cavalry passed Chalons going towards Epernay.

Strasbourg and Pfalsburg still hold out.

A fight occurred at Lisbon between the French and German citizens, in which a great many were killed.

Prince Napoleon had a long interview with the Austrian Ambassador while at Florence.

ENGLAND.

LONDON, August 29.—It is rumored the French Ambassadors have asked the great powers to guarantee the French dynasty.

The Times' military articles are attributed to General Burgoyne.

French frigates are cruising in Saint George's channel.

The Parisians affect the belief that the Prussians will be taken between two fires and exterminated.

Bismarck's personal train is nearly as heavy as King William's.

The Times says Paris must and will be saved, but the removal of the seat of government is indispensable, owing to the predominance of vile passions irreconcilable with public order and military movements.

The Times questions McMahon's tactics in moving northeast. He might at least have threatened the advancing Prussian columns.

Thiers asserted, at a meeting of the Committee of Defense, that the Prussians would never reach Paris without a complete victory over the French army. Even then they will not stay long.

The Irish war fever is intense. A fund for the wounded rapidly accumulates.

The German bark Texas put into a Scottish port for safety.

Trochu orders unnaturalized natives and enemies to the country out of Paris within three days. They must leave France or go behind Loire.

SPAIN.

MADRID, August 29.—The Regent and Ministry are consulting.

A coup d'etat is daily expected.

MIDNIGHT DISPATCHES.

NEW YORK.

NEW YORK, August 29.—A Sun special from Arlon via Brussels states that the Prussians are making a flank movement on McMahon. McMahon occupies the line from Troyes to Stenay, leaning on Mezieres, Sedan and Montmedy, with Belgian boundary behind. The Prussians who were marching on Paris have deployed from Stenay to Troyes. They have changed direction: instead of going west they are going South.

The troops around Troyes are marching in the direction of Romilly; those around Chalons in the direction of Suippes; those between Stenay and Varennes in the direction of Rethel by Grande Pria and Vanzienes, while a strong force is at Dun observing McMahon's left at Stenay. Meanwhile strong Prussian columns are advancing from Luneville and Jeonville to St. DeZenio, where King William was reported yesterday. He said the Prussian army would destroy McMahon as they destroyed Bazaine, and then turn their attention to Paris.

A great battle will certainly occur soon between Rethel and Montmedy.

Don't believe the dispatch from Rethel, saying that McMahon and Bazaine are in communication.

FRANCE.

PARIS, August 29.—A letter, describing the preparations for a siege, says: Two hundred thousand good troops are in Paris, and fresh thousands of well-armed men arrive hourly. New corps from Lyons have arrived.

Gens d'arms, foresters and customhouse employees are coming in from all departments.

One thousand eight hundred gunners from the fleet are in the fortifications.

The city is swarming with troops, and the prevailing impression is that the enemy will be checked.

ENGLAND.

LONDON, August 29.—Advices from the seat of war say the Emperor's headquarters are at Vouziers.

It is thought the Crown Prince is moving northward and will encounter McMahon west of Rheims and Thiery.

The French repulsed the Prussians four miles northwest of Vouziers.

McMahon is reported to be in the forest of Ardennes.

Bazaine is between Metz and Etain.

Later advices state that Steinmetz marched nortward, pursuing McMahon to prevent his disturbing the Prussians investing Metz.

Two German merchant vessels refuged in Yarmouth arbor and are blockaded by a French iron-clad in the offing.

A German schooner from Brazil was driven into an Irish port.

It is estimated that the General Assembly granted, yesterday, State aid to railroads to the tune of sixty millions of dollars.

G. T. Anderson, General Agent Atlantic & Gulf and Macon & Brunswick Railroad, leaves for New York, this morning, in the interest of the line. He will be glad to see all his friends at 229 Broadway for the next thirty days.

Passengers going to New York by the steamer Manhattan from Charleston on Saturday next, 3d September, must be in Charleston by the early morning train, as the steamer sails at 12 o'clock m.

Fulton Superior Court.—This court met yesterday, Judge O. A. Lochrane presiding, and adjourned until 9 o'clock a. m. this morning, when, we learn, the criminal docket will be taken up.

Newnan, Ga., August 27, 1870.—*Mr. Local:* The first bale of new cotton was received this day from the plantation of Colonel J. M. Hill at the fire-proof warehouse of U. B. Wilkinson, and sold for 25 cents per pound; weight, 550 pounds; class, middling.

U. B. Wilkinson & Co.

Atlanta, Ga., August 29, 1870.—Col. D. W. Lewis: *Dear Sir:* In order to encourage the healthful exercise of horseback riding among the fair of our country, we offer the following special premium:

For the best lady-rider at the ensuing State Fair, a toilet set and rosewood dressing-case, worth $50.

Very respectfully,
Redwine & Fox.

Mr. Local: There is a pig-stye in the rear of a lot on Ivy street, adjoining the store of Messrs. Norman & McCaslin. The Board of Health will confer quite a favor on the citizens in the neighborhood by having the same removed.

If the same board will examine the back lots on Decatur street, between Ivy and Calhoun, they will find much requiring attention necessary for the good health of the city.

Pro Bono Publico.

The ladies of the Confederate Memorial Society have made arrangements for giving a grand tableaux exhibition one night this week. There will be besides ten tableaux, songs by Mad. Dodon, of Paris, Mrs. Murray, of Griffin, the Quartette Club, and duetts by Atlanta amateurs. Clark's silver band will furnish the music. Mr J. H. Morgan is stage manager. The exhibition will be at DeGives' Opera House. Admission fifty cents.

Stone Mountain by Moonlight.—The ladies of St. Stephens', for the benefit of their church, propose to have a moonlight excursion to Stone Mountain, Thursday evening, September 8. Their object is to make all enjoy themselves, and at the same time realize a handsome sum. Nothing will be spared that will add to the pleasure of the trip. An excellent supper will be furnished for the small sum of one dollar, or, if preferred, so much for each plate, and the railroad fare will be one dollar, making expenses *only* two dollars.

They respectfully request all who favor Christianity to assist them in their noble purpose.

Considering the object and knowing *some* of the leaders, we already predict for them success.

The Bankrupt Law.—Congress at the last session amended the bankrupt law in two points. *First*—a debtor can now go voluntarily into bankruptcy and obtain a full discharge from all debts contracted before January 1, 1869. But he cannot obtain a release from debts contracted since that date, unless fifty cents in the dollar of his more recent debts should be received by his creditors on distribution of his estate. We understand that the only case of voluntary bankruptcy filed for the Northern District of Georgia, under the amended law, has been sent up from Mr. Register Murray.

By the second amendment it is provided that a creditor can put his debtor into bankruptcy if he either fraudulently suspends payment, or suspending without fraud, does not return payment within a period of fourteen days.

Chattanooga, Tennessee.—A correspondent of The Constitution, writing from Chattanooga, Tennessee, among the many celebrities of that flourishing city, after giving a short description of the mammoth rolling mill of S. B. Lowe, and the extensive foundry of Thos. Webster, which we will refer to at another time, says: "I dropped in at the extensive agricultural warehouse of G. S. Ruble, Esq., of Chattanooga, where I saw the finest stock of farming implements and labor saving machines that is to be found in the South. Among the latest improvements I saw was a new machine for sowing and cultivating in wheat, oats, and all other small grains, as well as for cultivating cane; a new cutting box for cutting of straw, etc.; cider mills, etc., as well as the latest styles of churns 'The Blanchard and Red Jacket Churn,' which goes ahead of anything in that line I ever saw. His stock consists of mowers and reapers, threshing machines, cultivators, cane mills, evaporators, clover hullers, portable engines and boilers, circular saws, lumber wagons, shingle machines, water wheels, pumps, etc."

During the early part of the last century Thomas Guy conceived the idea of erecting a hospital, which he did at an expense of over seventy-five millions of dollars, and afterwards endowed it with over a million for its support. Guy's hospital is to-day one of the greatest charities of its kind, as well as one of the greatest institutions, for the advancement of science and medicine and the amelioration of the sufferings of mankind to be found in Europe. How much of the spirit of Thomas Guy can be found to-day among the wealthy of this city or section to help, aid and assist in erecting a Central Hospital in the city of Atlanta for the benefit of those who may fall by the wayside by the misfortune of accident or disease?

The question is one of daily increasing importance, and movements are on foot to present it fairly to all. Let those who are willing to aid in so noble a work hand in their names. There are some in the city we know will give handsomely to such a charity. Who will head the list?

Atlanta, August 27, 1870.—A statement in reference to Oglethorpe College may not be uninteresting to most of your readers in Atlanta, and I, therefore, ask space for the following:

THE INSTITUTION.

Without going into detail as to its history, I would remark that, whatever disadvantage which may have attended its old location, the average matriculation of students upon its role has been a little over one hundred per annum. Its Faculty, in point of ability and scientific attainments, would always compare favorably with the faculties of other institutions of learning. It still has a fine Library, Chemical and Philosophical Apparatus, Geological Specimens, etc., etc., all of which will be immediately removed to Atlanta. A good proportion of its endowment was saved, though most of it was lost by reason of investments during the war in securities, which have since proven worthless. With a proud record in the past, and hundreds of Alumni scattered throughout the Southern States, its friends look hopefully to its future at its present location. Oglethorpe College is under the patronage of three Synods of the Presbyterian Church, embracing the Presbyterians in the States of South Carolina, Georgia, Florida and Alabama. At their late meeting the Board of Trustees elected as financial agent the Rev. S. S. Gaillard to visit the churches within the States named, "place its claims before the people and solicit and collect their contributions to the permanent endowment fund." The selection was a happy one, as Mr. Gaillard is a man of ability and energy, and carries with him an abiding zeal and faith as to the success and importance of the college.

PERMANENT SITE IN ATLANTA.

A good deal has been said in the papers, and even in City Council in reference to the "Neal Property." I will not stop to speak of the ungraciousness of such attacks upon the college, when a few words privately with any of the trustees would have satisfied any one really wishing proper information as to the wisdom of this purchase at the time made. The judgment of six men out of seven of the committee residing in this place and of the four trustees living in Macon, was in favor of the purchase. However, let that pass. A little more patience would have been prudent.

At their meeting the other day, the Board of Trustees adopted the following resolutions, which no doubt will satisfy all parties interested, viz:

1. That J S Wilson, D D, J C Whitner, L P Grant, J H James, E E Rawson, T Stobo Farrow, A Leyden, J R Wallace and B Y Clarke, are hereby [illegible] who shall be entrusted all questions relating to the establishment of a permanent site for the college, with power to purchase, or accept the site tendered as a donation, whichever, in their judgment, it shall be best to do so for the interests of the college, and in order to secure the cordial support of the citizens of Atlanta, and this in the meantime said committee make arrangements for the commencement exercises on the first Tuesday in October next, either in the present building or any other deemed suitable.

2. That said committee have power as soon as they deem it advisable, to negotiate a sale of the "Neal Property."

ORGANIZATION OF THE FACULTY.

The board also selected the following men to constitute the faculty. In point of ability and experience, I do not hesitate to say this faculty will compare favorably with any in our country, and will satisfy the people of Atlanta that the institution is intended to be of a first-class order.

Rev. David Wills, D. D., President and Professor of Mental Science and Sacred Literature.

Gustavus J. Orr, A. M., Professor of Mathematics and Astronomy.

Benjamin T. Hunter, A. M., Professor of Physical Sciences.

W. LeConte Stevens, A. B., Professor of Chemistry and Modern Languages.

Sylvanus W. Bates, A. M., Professor of Ancient Languages.

TERMS, ETC.

The first term will commence October 4, 1870, and end February 25, 1871. Second term will commence February 27, 1871, and end July 6, 1871. A vacation of two weeks will be given in winter, beginning December 24.

Terms of tuition $75,00 per annum—one-half in advance.

Any further information can be obtained on application to Dr. Wills, President of the Faculty, or to the undersigned.

MEETING OF THE COMMITTEE.

It is exceedingly desirable that this resident committee, designated above, should meet at an early day, and they are requested to do so on Monday next, at 3 o'clock p. m., at Colonel L. P. Grant's office.

IN CONCLUSION

Allow me to urge the whole people of Atlanta to a cordial support of Oglethorpe College.

It is the wish and intention of its Trustees to make it a first-class institution, worthy of the church under whose auspices it is fostered, and worthy of our city. As before said, it is under the control and endorsed by the three synods mentioned. So far it is a sectarian institution; but everybody knows it is impossible to make scientific and literary education sectarian. This is designed to be a literary and scientific college, and while conducted upon the purest moral and religious principles, no special forms or dogmas of the church will be taught in the college curriculum. Different denominations are already represented in the faculty. All our people can come up cordially to its support. The endorsement and patronage of Presbyterians in the States of South Carolina, Georgia, Florida, and Alabama, who are solemnly pledged to bestow it, with a chance of patronage from the same denomination in Tennessee, Mississippi, and other States, is a very great advantage looking to its success in our midst.

Respectfully,
Jno. C. Whitner,
Secretary Board of Trustees.

☞ The Crown Prince of Prussia is a handsome, quiet faced gentleman, past his first youth, full of military ardor and knowledge, and is quite conscious of the tremendous task devolving upon him as commander of the Southern army. His stake, too, is the largest in Prussia, for he plays to win or lose a throne, and a rule over a united German people. Nothing could be simpler than his *tenue de campagne*, the plain blue coat with the red collar, which every officer wears, and a light cap and clock.

Labor.—Labor is capital. Bestow good health upon a man, so that he can labor every six out of seven days, and no matter how poor he may have been at the commencement of life's great race, he will be certain to accumulate a fortune, provided he takes care of his earnings. Plantation Bitters is certain to make the weak ones strong, and to preserve the health of the healthy. From four to six hours is considered the ordinary limit for brain work. At the expiration of this time the phosphorus is carried off, and the man becomes irritable and nervous. If he is poor, and continues on at his task, as most of poor doctors, lawyers and editors do, he will be certain to shorten his days and fill an untimely grave, as did Sir Walter Scott, unless he uses Plantation Bitters, which speedily restores his vital energy, repairs his indigestion, and corrects the sluggish circulation of his blood.

Sea Moss Farine, from pure Irish Moss, for Blanc Mange, Puddings, Custards, Creams, etc., etc. The cheapest, healthiest, and most delicious food in the world. aug30-deod1w&w1t.

A Chapter of Facts.—Space is valuable in a newspaper, and it is therefore proposed in this advertisement to condense a variety of facts, important to the public, into a small compass. Those facts refer to Hostetter's Stomach Bitters—what that celebrated medicine is, and what it will do. In the first place then, the article is a stimulant, tonic and alterative, consisting of a combination of an absolutely pure spirituous agent with the most valuable medicinal vegetable substances that Botanic research has placed at the disposal of the chemist and the physician. These ingredients are compounded with great care, and in such proportions as to produce a preparation which invigorates without exciting the general system, and tones, regulates and controls the stomach, the bowels, the liver and the minor secretive organs.

What this great restorative will do must be gathered from what it has done. The case of dyspepsia, or any other form of indigestion, in which it has been persistently administered without effecting a radical cure is yet to be heard from, and the same may be said of bilious disorders, intermittent fever, nervous affections, general debility, constipation, sick headache, mental despondency, and the peculiar complaints and disabilities to which the feeble are so subject. It purifies all the fluids of the body including the blood, and the gentle stimulus which it imparts to the nervous system is not succeeded by the slightest reaction. This is a chapter of facts which readers, for their own sakes, should mark and remember. aug30-deod1w&w1t.

B. A. FAHNESTOCK'S VERMIFUGE.

WHY is it that so many children die under the age of five years? That a large proportion of children die under that age, has long been a subject of remark, and without a satisfactory cause ascertained, it is certain.

Also, it is known that worms exist in the human system from its earliest infancy; therefore parents, especially mothers, who are more constantly with their children, can not be too observing of the first *symptoms of worms;* for so surely as they exist, can they be safely and certainly removed from the most Delicate Infant, by the timely use of

B. A. Fahnestock's Vermifuge.

It is perfectly harmless, contains no Mercury, being a purely Vegetable Composition, and may be administered with the utmost safety to children of all ages.

Worm Confections, made more for the purpose of pleasing the palate than of overcoming the disease, have been manufactured all over the country, but their short lease of life is nearly exhausted, and B. A. Fahnestock's Vermifuge continues to grow in favor daily.

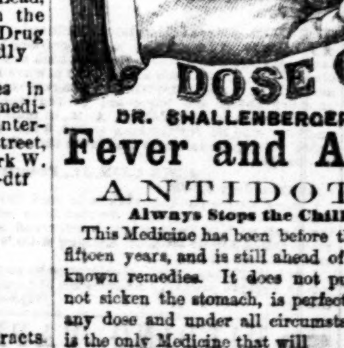

CAUTION.

Should occasion require you to purchase B. A. Fahnestock's Vermifuge, be particularly careful too see that the initials are B. A. This is the article that has been so

Favorably Known Since 1829,

And purchasers must insist on having it, if they do not wish to have an invitation forced upon them.

DR. JOHN BULL'S

Great Remedies.

DR. JOHN BULL,

Manufacturer and Vender of the Celebrated

Smith's Tonic Syrup,

FOR THE CURE OF

AGUE AND FEVER,

—OR—

Chills and Fever.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroyer.

To my United States and World-wide Readers.

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia, is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker County, Ga., June 29, 1866.

DR. JOHN BULL—Dear Sir: I have recently given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s but I see no just cause or good sense in discarding a remedy which we know to be efficient, simply because we may be ignorant of its combination. For my part, I shall make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT, M. D

Bull's Sarsaparilla.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACK'S, Mo., April 30 1866.

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and oblige.

Capt. C. P. JOHNSON, St. Louis, Mo.

P. S.—The following was written April 30, 1866, by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. C. S Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. IT CURED HIM. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever sores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Respectfully, JENNIE JOHNSON

BULL'S CEDRON BITTERS

AUTHENTIC DOCUMENTS.

ARKANSAS HEARD FROM.

Testimony of Medical Men

STONEY POINT, White Co., Ark., May 23, 1866.

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for several years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely.

Respectfully, C. B. WALKER.

READ

IT is well known to Doctors and to Ladies, that that Women are subject to numerous diseases peculiar to their sex—such as Suppression of the [illegible] Whites, Painful Monthly 'Periods,' Rheumatism of the Back and Womb, Irregular Menstruation, Hemorrhage, or Excessive 'Flows,' and Prolapsus Uterior Falling of the Womb.

These diseases have seldom been treated successfully. The profession has sought diligently for some remedy that would enable them to treat these diseases with success. [illegible] has been discovered by one of the most skillful physicians in the State of Georgia. That remedy is

BRADFIELD'S FEMALE REGULATOR.

It is purely vegetable, and is put up in Atlanta, Ga., by Bradfield & Co.

It will purify the blood and strengthen the system, relieve irritation of the kidneys, and is a perfect specific for all the above diseases, as certain a cure as quinine is in Chills and Fevers.

For a history of diseases, and certificates of its wonderful cures, the reader is referred to the wrapper around the bottle.

Every bottle warranted to give satisfaction or money refunded.

LAGRANGE, GA., March 23, 1870.

BRADFIELD & Co., Atlanta, Georgia:

DEAR SIRS: I take pleasure in stating that I have used, for the last twenty years, the medicine you are putting up, known as DR. J. BRADFIELD'S FEMALE REGULATOR, and consider it the best combination ever gotten together for the diseases for which it is recommended. I have been familiar with the prescription, both as a practitioner of medicine and in domestic practice, and can honestly say that I consider it a boon to suffering females, and can but hope that every lady in our whole land, who may be suffering in any way peculiar to their sex, may be able to procure a bottle, that their sufferings may not only be relieved, but that they may be restored to health and strength.

With my kindest regards, I am, respectfully,
W. B. FERRELL, M. D.

We, the undersigned Druggists, take pleasure in commending to the trade Dr. J. BRADFIELD'S FEMALE REGULATOR—believing it to be a good and reliable remedy for the diseases for which he recommends it.

W. A. LANSDELL, Atlanta, Georgia.
PEMBERTON, WILLSON, TAYLOR & CO., Atlanta, Georgia.
REDWINE & FOX, Atlanta, Georgia.
W. C. LAWSHE, Atlanta, Georgia.
W. ROOT & SON, Marietta, Georgia.

DR. PROPHITT'S Celebrated Liver Medicine.

It is purely vegetable, and will act upon the Liver and Kidneys as promptly as Calomel and Buchu, without any danger of salivation or destruction of the bones.

Parties taking this medicine need not fear getting wet, or any other reasonable exposure.

Symptoms of Liver Disease:

Headache, Dull Feeling or the Blues, Sour Stomach, Sick or Nervous Headache, Heartburn, Indigestion or Dyspepsia, Bad or Bitter Taste in the Mouth, the skin has a thick, rough feeling, and is darker than usual, Costiveness, Melancholy Feelings, Cramps, Cold Feet, Colic, Dysentery, or Diarrhœa, Chills and Fever, and Piles. In fact, where the Liver is out of order, you are liable to every disease that is not contagious.

Prophitt's Liver Medicine, if taken properly, will prevent and cure any disease resulting from a deranged Liver.

It will regulate its functions and thus cure all diseases caused by the failure of its healthy action.

It has been used for a great number of years, and has given universal satisfaction.

There is no brother or son claiming to have the original receipt. It is put up in both Powder and Fluid form.

FAIRBURN, GA., September 4, 1868.

DR. O. S. PROPHITT:

SIR: My wife has been an invalid for fifteen years. Doctors all agreed she had "Liver Disease." In connection with their practice she used various noted remedies, none of which seemed to do any good. Sometime ago I procured a bottle of your "Liver Medicine," of your agent here, C. A. Harvey, which being given according to directions, has effected a complete cure.

Respectfully, etc.,
GEO. L. THOMPSON.

ATLANTA, GEORGIA, July 18, 1870.

MESSRS. BRADFIELD & Co.:

GENTLEMEN—Last year, during my travels in Alabama and Southwest Georgia, I contracted chills and fever, and my general health became very bad. I tried various remedies, and among others Shallenberger's Pills—all to no purpose. I was troubled with intense pain in the small of my back, and for months I did not have a moment's rest. I had well nigh despaired of recovering when a friend recommended me to take Dr. Prophitt's Liver Medicine. I did so, and one bottle has cured me; and to-day I feel like another man. I consider it one of the best medicines for general use now put up, and, without any reservation, recommend it to the afflicted. I am, gentlemen, very respectfully yours, etc.,

O. M. HARRALSON.

DR. PROPHITT'S DYSENTERY CORDIAL

Is one of the most valuable compounds now put up for Diarrhœa, Dysentery, Cholera Infantum, or Cholera Morbus.

This medicine has been in use for years, and gives universal satisfaction.

The most delicate child may take it with impunity.

COVINGTON, GA., November 9, 1867

DR. PROPHITT:

Having a severe attack of Dysentery during the past summer, I was induced to use your Dysentery Cordial, and derived therefrom immediate and permanent relief. It gives me pleasure to recommend this remedy to all who may be so attacked, believing that, should the directions be followed, relief would surely be obtained.

Truly, etc., O. S. PORTER.

CUSSETA, TEXAS, 1869.

DR. PROPHITT:

DEAR SIR: Your Liver Medicine and Pain Kill It is a complete success. J. L. WHITTLE.

PROPHITT'S PAIN KILL IT.

This is the celebrated medicine that run Perry Davis' Pain Killer out of the market, wherever it was sold. Davis made Prophitt change the name from Pain Killer to PAIN KILL IT.

For Rheumatism, Neuralgia, or pain of any kind, it has no equal.

For Cuts, Bruises, Burns, or old Sores, it is the best thing you can use as a dressing.

For SNAKE BITES or STINGS of POISONOUS INSECTS, it is a perfect ANTIDOTE.

It is good for Colic, Colds, Coughs, or Bowel Complaint. Its name indicates its nature fully It is truly DEATH to pain.

Manufactured and sold by BRADFIELD & CO., Atlanta, Georgia, and for sale by all Druggists.

NEWTON FACTORY, GA., November, 1867.

DR. PROPHITT:

Last summer my horse sprained his knee severely, causing the whole leg to swell to about twice its natural size, and rendering him almost helpless; two applications of your Anodyne Pain Kill It thoroughly cured it.

JOHN B. DAVIS.

DR. PROPHITT'S *Fever and Ague Pills.*

THE best Antidote for Chills and Fever known. Cures warranted in every case or money refunded. Purely vegetable.

DR. PROPHITT'S ANTI-BILIOUS PILLS

WILL relieve Headache, Nervousness, Jaundice, and all other derangements of the Liver. Purely vegetable.

Manufactured and for sale by BRADFIELD & CO., Broad Street, Atlanta, Georgia and for sale by all Druggists of Atlanta, Georgia, at manufacturers prices.

CERTIFICATES.

We, the undersigned, have used Dr. Prophitt's Preparations and take pleasure in recommending them to the public, as being all he claims for them:

ROSADALIS!

THE Great American Health Restorer, purifies the blood and cures Scrofula Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.

Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says:

I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesboro', Tenn., says:

I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by all Druggists.

A NEW DISCOVERY!! PHALON'S "VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!!
OPEN TO THE LIGHT!!!

For Restoring to Gray Hair its Original Color.

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

SEASON, 1870.

MONTVALE SPRINGS,

Blount County, East Tennessee.

THIS favorite Summer Resort for the invalid and pleasure-seeker will be open for the reception of visitors, JUNE 1st, 1870.

The most marked beneficial results attending the use of these waters, in functional derangements of the Liver, Bowels, Kidneys and Skin, and the cure of Chronic Diseases, attest the Medical Properties of these Waters.

Situated at the base of the Chilhowee Mountains, it presents the strongest attractions to both the invalid and the pleasure-seeker, no less on account of its pure invigorating atmosphere and the beauty of the surrounding scenery, than of the Restorative Powers of its waters.

Such provision has been made for the Comfort of visitors, that the Proprietor confidently promises satisfaction to his guests.

Daily Coaches, with mail and passengers, run between Maryville, the terminus of the Railroad from Knoxville, and the Springs, distant nine miles, over good roads.

Board per day $2 50; per week $16 00; per month, $60 00.

BARRETT'S HAIR RESTORATIVE.

THE FIRST PREMIUM OF A SILVER MEDAL WAS AWARDED TO BARRETT'S HAIR RESTORATIVE By the N. H. State Agricultural Society, at its Fair, holden in Nashua, Sept. 20, 1868.

BARRETT'S Vegetable Hair Restorative

Restores Gray Hair to its natural color. Promotes the growth of the Hair. Changes the roots to their original organic action. Eradicates Dandruff and Humors. Prevents Hair falling out. Is a Superior Dressing. It contains no injurious ingredients, and is the most popular and reliable article throughout the East, West, North and South.

This Preparation surpasses all others of its class as a **Hair Renewer.**

It is thorough in its action upon **Gray** or **Faded** Hair and its effect permanent.

It produces but **one distinct shade**, while others leave the hair in many varied colors.

It **promotes growth** when others fail to reproduce a single hair.

It does not **crisp** or **dry** the hair, but leaves it moist and glossy.

Ladies find it superior to any other as a Toilet **Dressing.**

The ingredients used in this Preparation are the **very best** that can be found, and are as harmless as water.

Is the *only series* prepared by eminent *Southern* educators, and they are the *only books* which are *without offense* to the feelings and thoughts of the Southern people. While entirely unsectional and non-partisan, they are specially adapted to the wants of Southern teachers and parents, and are received with enthusiastic favor everywhere.

The economy and convenience of a *uniform series* of Text-Books being now well understood, and the UNIVERSITY SERIES being the *only series* which in authorship, contents, and plan, is entirely acceptable *to the Southern people*, it is rapidly becoming the

Uniform Series throughout the South,

and teachers will find it greatly to their advantage to give the volumes early examination. Their exclusive use by their children is being *demanded by Parents* everywhere, and desired by the best Teachers.

They are the *freshest* and *best* books now published; *practical, progressive*, and *up with the times*. They are *beautifully illustrated, handsomely printed*, and *strongly bound*.

The "University Series" comprises:

Holmes' Readers, Speller, Grammars. 12 vols.
Venable's Series of Mathematics. 9 vols.
Maury's Series of Geographies and Astronomy. 3 vols.
De Vere's French Series. 4 vols.
Gildersleeve's Latin Series. 3 vols.
Le Conte's Scientific Series. 3 vols.
Holmes' History of the United States.
Johnston's English Classics.
Carter's Elements of General History.
Gresby's Bible Manual, &c., &c.

Send for Circulars giving full particulars and descriptions, which we shall be glad to mail to any address.

We shall be gratified to receive communications, catalogues, circulars, &c., from Teachers and School Officers everywhere.

Prices low and Terms liberal.

MACON ADVERTISEMENTS.

Hardeman & Sparks

WE DEEM IT WHOLLY UNnecessary to inform the Planters of Middle and Southwestern Georgia, that we are still engaged, at our old stand, in the

WAREHOUSE AND COMMISSION

business, where, for so many years, we have served you as

FACTORS

—AND—

Commission Merchants.

We have left no stone unturned to aid you in carrying on your farming interest, and in turn we now bespeak a continuation of the very liberal patronage extended us in the past. Your cotton shall be weighed on the LEVEL, sold and accounted for on the SQUARE. By closely guarding your every interest, we intend to merit your patronage.

To our old friends, of many years standing, we return our grateful acknowledgments, and to new ones, who may try us, we promise our best efforts, backed by the experience of many years, to serve them faithfully and well.

Orders for supplies will meet with prompt attention.
